

**Cooking oil that cares for your health.
Rice that keeps you fit and active.
Infertile land that yields a rich harvest.**

It pays to think differently.

We got millions to adopt a healthy lifestyle with Saffola. Introduced a healthier rice that had consumers return to their favourite staple without guilt. And with our 'Agri Extension Initiatives', helped farmers turn fallow land into a productive asset yielding high returns. It is this ability to find opportunities where none exist that has transformed the lives of all those we touch - our consumers, partners, associates and shareholders - helping them maximize their potential. Every day. The evidence is there for all to see: 16 flourishing brands and predictably good results. Year after year.
