

Marico Bangladesh Limited
Independent Auditor's Report
and
Audited Financial Statements

**as at and for the quarter and nine-month
period ended 31 December 2021**

**Independent Auditor's Report
To the Shareholders of Marico Bangladesh Limited**

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Marico Bangladesh Limited ("the Company"), which comprise the statement of financial position as at 31 December 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the quarter and nine-month period then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give true and fair view, in all material respects, of the financial position of the Company as at 31 December 2021, and of its financial performance and its cash flows for the quarter and nine-month period then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements for the current period. These matters were addressed in the context of the audit of the financial statements, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

➤ **Revenue recognition**

Referring to the Note 18 and Note 35.13 to the financial statements, Revenue of BDT 10,095 million is recognized in the statement of profit or loss and other comprehensive income of Marico Bangladesh Limited. This material item is subject to considerable inherent risk due to the risk of being overstated at the end of the reporting period on account of variation in the timing of transfer of control by the management in order to meet expectations of the shareholders and also to achieve performance targets. Accordingly, there could be potential misstatements that revenue made during the period end are not recognised in the correct reporting period.

How our audit addressed the key audit matter:

In light of the fact that the high degree of complexity and high volume of transactions give rise to an increased risk of accounting misstatements, we assessed the Company's processes and controls for recognizing revenue as part of our audit. Our audit approach included testing of the controls and substantive audit procedures.

- ▶ Assessed key controls related to the reporting of revenue; starting from the contract approval to the recognition of sales and subsequent balance of the customer and cash receipt.
- ▶ Assessed the invoicing and measurement systems up to entries in the general ledger.
- ▶ Analysed and tested customer contracts, invoices and receipts on a sample basis.
- ▶ Tested the sales transactions at the close to the period end on a sample basis by reviewing the relevant supporting documents to ensure the completeness of revenue recognition in the current and subsequent accounting period.
- ▶ Performed substantive period end cut-off testing by selecting samples of revenue transactions recorded at and after period end, and verified the underlying supporting documents.
- ▶ Scrutinised sales returns and reversals, which were recorded in the general ledger subsequent to period end to identify any significant unusual items.

Furthermore, we assessed the accounting effects of new business and price models. We read and analysed the disclosures made in the financial statements.

➤ **Uncertain Tax Position:**

Referring to Note 25 & Note 28 of the financial statements, the Company is subject to periodic review by local tax authorities on a range of tax matters during the normal course of business including indirect taxes and transaction related tax matters that could eventually require payments of taxes and possible additional charges. Judgement is required in assessing the level of provisions and disclosure of contingent liabilities, required in respect of uncertain tax position that reflects management's best estimates of the most likely outcome based on the facts available.

This was a key audit matter because of the amounts involved and because of the estimation of the likely impact and the final outcome of these matters.

The Company records provisions for uncertain liabilities, including tax contingencies, when it is more likely than not that a liability has been incurred, and the amount can be reliably estimated.

How our audit addressed the key audit matter:

In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:

- ▶ Obtained a listing of all ongoing tax litigations
- ▶ Discussed with the management regarding tax matters, tax jurisdictions and tax communications;
- ▶ Evaluated management's judgment regarding the expected resolution of matters
- ▶ Sought and obtained confirmations from external legal counsel of the company
- ▶ Analysis of responses in letters independently obtained from the tax consultant and external counsels of the Company on various matters
- ▶ Obtained and read the disclosures made in the accompanying financial statements

Other matters

The financial statements of Marico Bangladesh Limited as at 31 March 2021, and for the quarter and nine-month period ended 31 December 2020, were audited by another auditor who expressed an unmodified opinion on those statements on 02 May 2021, and 25 January 2021 respectively.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 1987, we also report the following:

- i) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made do verification thereof;
- ii) In our opinion, proper books of account as required by law have been kept by the company so far as it appeared from our examination of these books;
- iii) The statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account and returns; and
- iv) The expenditure incurred was for the purposes of the company's business.

Marico Bangladesh Limited
Notes to the financial statements
For the quarter and nine-month period ended 31 December 2021

1. Reporting entity

1.1 Company profile

Marico Bangladesh Limited (hereinafter referred to as "MBL"/"the Company") is a public limited company incorporated on 6 September 1999, vide the certificate of incorporation number C-38527(485)/99 of 1999 in Bangladesh under the Companies Act 1994 and has its registered address at House # 01, Road # 01, Sector # 01, Uttara Model Town, Dhaka-1230. The corporate address of the Company is at The Glass House, Level 6-7, Plot 2, Block SE(B), Gulshan 1, Dhaka 1212. The Company was initially registered as a private limited company and subsequently converted into a public limited company on 21 September 2008. The Company was listed with both Dhaka Stock Exchange (DSE) and Chittagong Stock Exchange (CSE) on 16 September 2009.

1.2 Nature of business

The Company is engaged in manufacturing and marketing of consumer products under the brand name of Parachute, Nihar, Saffola, Hair Code, Livon, Parachute Advanced, Beliphool, Ayurvedic Gold, Extra Care, Parachute Body Lotion, Set-Wet and Bio Oil in Bangladesh. The Company started its commercial operation on 30 January 2000. Subsequently, it started its commercial production at Filling unit, Crushing unit and Refinery unit in 2002, 2012 & 2017 respectively. Its manufacturing plants are located at Mouchak, Kaliakoir, Gazipur and Shirirchala, Mahona, Bhabanipur, Gazipur. The Company sells its products through its own distribution channels comprising of sales depots located in Gazipur, Chittagong, Bogra and Jessore.

2. Basis of preparation

2.1 Statement of compliance

The Financial Reporting Act, 2015 (FRA) was enacted in 2015. The Financial Reporting Council (FRC) under the FRA has been formed in 2017 but the Financial Reporting Standards (FRS) under this council is yet to be issued for public interest entities such as listed entities.

As the FRS is yet to be issued by FRC hence as per the provisions of the FRA (section-69), the financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) and the Companies Act, 1994. The title and format of these financial statements follow the requirements of IFRSs which are to some extent different from the requirement of the Companies Act, 1994. However, such differences are not material and in the view of management, IFRS format gives a better presentation to the shareholders.

The Company also complied with the requirements of following laws and regulations from various Government bodies:

- i. Bangladesh Securities and Exchange Rules 1987;
- ii. The Income Tax Ordinance, 1984; and
- iii. The Value Added Tax and Supplementary Duty Act, 2012;

Details of the Company's accounting policies including changes during the year, if any, are included in note 35.

Notes to the financial statements (continued)

2.2 Authorisation for issue

These financial statements are authorised for issue by the Board of Directors in its 117th Board of Directors meeting held on 24 January 2022.

2.3 Reporting period

The financial period of the Company covers period ended on 31 December 2021.

2.4 Comparative and reclassification

Comparative information has been disclosed for all numerical, narrative and descriptive information where it is relevant for understanding of the current period financial statements. Comparative figures have been rearranged/reclassified wherever considered necessary, to ensure better comparability with the current period financial statements and to comply with relevant IFRSs.

3. Functional and presentation currency

These financial statements are presented in Bangladeshi Taka (Taka/TK/BDT) which is the Company's functional and presentation currency. All amounts have been rounded off to the nearest integer.

4. Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

(a) Judgements

Information about judgements related to lessee accounting under IFRS 16 made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is described in note 35.4 & 35.15

(b) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at 31 December 2021 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next twelve month period is included in the following notes:

Note 25.1	Deferred tax
Note 5	Property plant equipment
Note 6	Intangible assets
Note 10	Inventories
Note 14	Employee benefit obligation
Note 17	Current tax liabilities
Note 28	Contingent liabilities

Notes to the financial statements (continued)

5. Property, plant and equipment
See accounting policy in Note 35.2

A. Reconciliation of carrying amount

28. Contingent liabilities

The Company has contingent liability of BDT 1,103,433,853 as on 31 December 2021 in respect of indirect tax (VAT) and workers' profit participation & welfare fund. These are being vigorously defended by the Company. The management does not consider that it is appropriate to make provision in respect of any of these claims.

The Company has ordinary letter of credit amount of Taka 808,919,520 Standard Chartered Bank. Shipping guarantee of Taka 51,241,789 with Standard Chartered Bank Taka 528,447 with Hongkong and Shanghai Banking Corporation and Taka 507,179 with CITI Bank NA.

Notes to the financial statements (continued)

29. Capital management

For the purpose of the company's capital management, capital includes issued capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

To maintain or adjust capital structure, the Company may adjust the amount of dividend, return on capital, issue new share or obtain long term-debt. All major investment and financing decisions, as a part of its capital management, are evaluated and approved by its Board of Directors.

No changes were made in the objectives, policies or processes for managing capital during the period ended 31 December 2021.

30. Segment information

The Company essentially provides similar products to customers across the country. Business activities in which it engages and the economic environments in which it operates are of similar nature. Its business is not segmented by products or geographical areas and its operating result is viewed as a whole by its management. Hence, segment information is not relevant for the Company.

31. Subsequent events

The Board of Directors of Marico Bangladesh Limited at its 117th meeting held on 24th January 2022 has declared 200% interim cash dividend i.e. 20TK per share, amount to total Taka 630,000,000 for the period ended 31st December 2021.

Notes to the financial statements (continued)

32. Financial instruments - fair values and financial risk management

32.1 Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

31 December 2021

Particulars	Note	Carrying amount								Total				
		Fair value hedging instruments		Mandatorily at fair value		FVOCI-debt instruments		FVOCI-equity instruments			Financial assets at amortized cost		Other financial liabilities	
		BDT	BDT	BDT	BDT	BDT	BDT	BDT	BDT		BDT	BDT	BDT	BDT
Financial assets measured at fair value													-	-

Notes to the financial statements (continued)

32.2 Financial risk management

The Company management has overall responsibility for the establishment and oversight of the Company's risk management framework. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

32.2.1 Credit risk

Credit risk is the risk of financial loss if a customer or counterpart to a financial instrument fails to meet its contractual obligation which arises principally from the Company's receivables from customers.

The Company makes sales on advance basis i.e. it receives advance from customers prior to sale, so there is no credit risk due to uncollectibility from the customers. However, the Company maintains most of the financial assets with short-term deposits and cash and cash equivalents.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Note	31 December 2021	31 March 2021
	BDT	BDT
9.	2,027,383,313	1,758,185,000
9.	3,559,897	6,814,738
9.	62,467,311	65,033,298
11	1,244,522,417	396,404,261
	3,337,932,938	2,226,437,297

Financial assets

Fixed deposits
Loans to employees
Trade receivables
Cash and cash equivalents

Notes to the financial statements (continued)

32.2 Financial risk management (continued)

32.2.2 Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The contractual maturities of financial liabilities of the Company are as follows:

Note	Carrying amount	Expected cash flow		6 months or less		6-12 months		1-2 years		2-5 years		More than 5 years	
		BDT	BDT	BDT	BDT	BDT	BDT	BDT	BDT	BDT	BDT	BDT	BDT

	2,395,605,317	2,345,605,317	2,345,605,317	2,345,605,317	-	-	-	-	-	-	-	-	-

Notes to the financial statements (continued)

32.2.3 Market risk

Market risk is the risk that includes changes in market price, such as foreign exchange rate, interest rates, and equity prices that may affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

i) Currency risk

The Company's exposures to foreign currency risk at 31 December 2021 are as follows:

	31 December 2021	31 March 2021
	USD	USD
Import of goods and services	(2,827,504)	(771,798)
Bank balance	1,696,139	508,702
	(1,131,365)	(263,096)

The following significant exchange rates have been applied during the year:

	Average rate		Year-end spot rate	
	31 December 2021	31 March 2021	31 December 2021	31 March 2021
Exchange rate (USD/BDT)	85.14	84.82	86.09	84.71

Notes to the financial statements (continued)

ii) Foreign exchange rate sensitivity analysis

The basis for the sensitivity analysis to measure foreign exchange risk is an aggregate corporate-level currency exposure. The aggregate foreign exchange exposure is composed of all assets and liabilities denominated in foreign currencies.

A 1% change in foreign exchange rates would have increased/(decreased) equity and profits or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates remain constant.

	Profit/(loss)		Equity	
	Strengthening BDT	Weakening BDT	Strengthening BDT	Weakening BDT
31 December 2021				
USD (1% movement)	(974,004)	974,004	(974,004)	974,004
31 March 2021				
USD (1% movement)	(222,869)	222,869	(222,869)	222,869

iii) Interest rate risk

Interest rate risk is the risk that arises due to changes in interest rates. The Company is not exposed to fluctuations in interest rates as it has no floating interest rate bearing financial liability as at the reporting date. The Company has not entered into any agreement involving derivative instrument at the reporting date.

As at 31 December 2021, the interest rate profile of the Company's interest bearing financial instruments was:

	31 December 2021 BDT	31 March 2021 BDT
Fixed rate instruments		
Financial assets		
Fixed deposit receipts	2,027,383,313	1,758,185,000
Financial liabilities	-	-
Variable rate instruments		
Financial assets	-	-
Financial liabilities	-	-

Notes to the financial statements (continued)

33. Basis of measurement

The financial statements of the Company have been prepared on historical cost basis except for net defined benefit (asset)/liability for which the measurement basis is the fair value of plan assets less the present value of the defined benefit obligation, as explained in note 35.9.

34. Standards issued but not yet effective

In January 2018, the Institute of Chartered Accountants of Bangladesh (ICAB) has adopted International Financial Reporting Standards issued by the International Accounting Standards Board as IFRSs. As the ICAB previously adopted such standards as Bangladesh Financial Reporting Standards without any modification, this adoption does not have any impact on the financial statements of the Company.

A number of new standards are effective for annual periods beginning after 1 April 2020 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

The following amended standards and interpretations are effective from 1 April 2020.

- *Amendments To References To Conceptual Framework in IFRS Standards.*
- *IFRS 17 Insurance Contracts.*
- *Definition of Material (Amendments to IAS 1 and IAS 8)*

35. Significant accounting policies

The Company has consistently (otherwise as stated) applied the following accounting policies to all periods presented in these financial statements.

Note	Particulars
35.1	Foreign currency transactions
35.2	Property, plant and equipment
35.3	Intangible assets
35.4	Right of use asset
35.5	Inventories
35.6	Financial instruments
35.7	Share capital
35.8	Dividend to the equity holders
35.9	Employee benefits
35.10	Accruals
35.11	Provisions
35.12	Income tax
35.13	Revenue
35.14	Finance income and finance cost
35.15	Lease liabilities
35.16	Impairment
35.17	Contingencies
35.18	Earnings per share
35.19	Events after the reporting period

35.1 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency (BDT) at exchange rates at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at reporting date are re-translated into (BDT) at the exchange rates ruling at the statement of financial position date. Non-monetary assets and liabilities denominated in foreign currencies, stated at historical cost, are translated into (BDT) at the exchange rate ruling at the date of transaction. Foreign exchange differences arising on translation are recognised in profit or loss.

Notes to the financial statements (continued)

35. Significant accounting policies (continued)

35.2 Property, plant and equipment

i) Recognition and measurement

Property, plant and equipment (PPE) is recognised as an asset if it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the item can be measured reliably.

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the assets, bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management.

Parts of an item of property, plant and equipment having different useful lives, are accounted for as separate items (major components) of property, plant and equipment.

ii) Subsequent cost

Subsequent cost of an item of property, plant and equipment is capitalised only if it is probable that future economic benefits embodied within the item will flow to the Company and its costs can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

iii) Depreciation

No depreciation is charged on land and asset under construction (AuC) as the land has unlimited useful life and AuC has not yet been placed in service /commissioned.

Other items of property, plant and equipment is depreciated on a straight line basis in profit or loss over the estimated useful lives of each item of property, plant and equipment. Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately. Depreciation is charged from the month of acquisition of property, plant and equipment and no depreciation is charged in the month of disposal.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. The estimated useful lives of the items of property, plant and equipment for the current and comparative period are as follows:

Assets	Depreciation rate
Plant and machinery	10-33%
Factory equipment	20-33%
Moulds	15-33%
Factory building	5-20%
Laboratory equipment	20-33%
Office equipment	33-50%
Computers	33-50%
Furniture and fixtures	20-50%
Office building	10-20%
A.C and refrigerators	20-33%

iv) Derecognition

An asset is derecognised on disposal or when no future economic benefits are expected from its use and disposal. Gains or losses arising from the derecognition of an asset are determined as the difference between net disposal proceeds and the carrying amount of the assets and are recognised in profit or loss.

Notes to the financial statements (continued)

35. Significant accounting policies (continued)

35.2 Property, plant and equipment (continued)

v) Asset under construction

Asset under construction represents the cost incurred for acquisition and/or construction of items of property, plant and equipment that are not ready for use which is measured at cost. These are transferred to the property, plant and equipment on the completion of the projects.

vi) Capitalisation of borrowing costs

As per the requirements of IAS 23 *Borrowing Costs*, directly attributable borrowing costs are capitalised during construction period for all qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. The borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are those borrowing costs that would have been avoided if the expenditure on the qualifying asset had not been made. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

35.3 Intangible assets

i) Recognition and measurement

Intangible assets have finite useful lives and are stated at cost less accumulated amortisation and any impairment losses. Intangible assets are recognised in accordance with IAS 38 *Intangible assets*. Intangible assets include cost of acquisition of computer software, intellectual property, copyright and other costs incidental to such capital expenditure.

ii) Subsequent costs

Subsequent costs are capitalised only when they increase the future economic benefits embodied in the specific asset to which they relate. All other costs are recognised in profit or loss as incurred.

iii) Amortisation

Amortisation is recognised in profit or loss on straight line basis over the estimated useful lives of intangible assets from the date they are available for use.

Intangible asset (Computer Software) is amortised at the rate of 20% to 33%.

iv) Derecognition

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of intangible assets, measured as the difference between the net disposal proceeds and the carrying amount of the assets, are recognised in profit or loss.

35.4 Right of use asset

The Company recognises a right-of-use asset at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liabilities. When a right-of-use asset meets the definition of investment property, it is presented in investment property. The right-of-use asset is initially measured at cost, and subsequently measured at fair value, in accordance with the Company's accounting policies.

Notes to the financial statements (continued)

35. Significant accounting policies (continued)

35.5 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on weighted average cost method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Stores and spares and material in transit are measured at cost.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

35.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

ii. Classification and subsequent measurement

Financial assets – policy applicable from 1 April 2018

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Notes to the financial statements (continued)

35. Significant accounting policies (continued)

35.6 Financial instruments (continued)

Financial assets – business model assessment: policy applicable from 1 April 2018

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management; the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets – subsequent measurement and gains and losses: policy applicable from 1 April 2018

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial assets includes cash and cash equivalents, trade and other receivables and short term investment.

(a) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and all cash deposits with maturities of three months or less that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

(b) Trade and other receivables

Trade and other receivables are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Notes to the financial statements (continued)

35. Significant accounting policies (continued)

35.6 Financial instruments (continued)

(c) Short-term investment

Short-term investment consists of fixed deposits with original maturity of more than three months. The Company has the positive intent and ability to hold FDR to maturity, and such financial assets are carried as financial assets at amortised cost. Held-to-maturity financial assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortised cost using the effective interest method, less any impairment losses.

iii. Financial liability

All financial liabilities are recognised initially on the transaction date at which the Company becomes a party to the contractual provisions of the liability.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

Financial liabilities include trade and other payables etc.

(a) Trade and other payables

The Company recognises trade and intercompany payables when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

(b) Loans and borrowings

The Company derecognises loans and borrowings when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises loans and borrowings when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

35.7 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares, net of any tax effects, are recognised as a deduction from equity.

Paid up capital represents total amount contributed by the shareholders and bonus shares, if any, issued by the Company to the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding up of the Company, ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation.

35.8 Dividend to the equity holders

The Company recognises a liability to make cash dividend when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in Bangladesh, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Notes to the financial statements (continued)

35. Significant accounting policies (continued)

35.9 Employee benefits

i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

ii) Defined benefit plan (Gratuity)

The Company operates an unfunded gratuity scheme, provision in respect of which is made annually covering all its eligible employees. This scheme is qualified as defined benefit plan.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognised asset is limited to the total of any unrecognised past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. When the benefits of the plan are improved, the portion of the increased benefit related to past service by employees is recognised in profit and loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in profit and loss. Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised immediately in other comprehensive income. Relevant tax impacts of such remeasurements are also recognised under other comprehensive income.

iii) Leave encashment

The Company operates unfunded leave encashment scheme, i.e. if its employees do not avail leave during his/her service, s/he will be entitled to encash privilege leave at the time of separation from the Company subject to maximum 40 days, at the rate of one month's basic pay for 30 days of privilege leave. This scheme is qualified as other long term employee benefits.

The Company's net obligation in respect of leave encashment scheme is the amount of future benefit that employees have earned in return for their service in the current and prior periods and the calculation is performed annually by a qualified actuary.

iv) Workers' profit participation and welfare fund

The Company operates fund for workers as workers' profit participation and welfare fund ("the Fund") and provides 5% of its profit before tax as per provision of the Bangladesh Labour Act 2006. The Company recognises the contribution to the fund as short term employee benefits.

The Fund is governed by Bangladesh Labour Act, 2006 as amended up to 28 September 2015 and the trust deed.

35.10 Accruals

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amongst due to employees. Accruals are reported as part of trade and other payables.

35.11 Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate thereof can be made.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits are required to settle the obligation, the provisions are reversed.

Notes to the financial statements (continued)

35. Significant accounting policies (continued)

35.12 Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

i) Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Provision for corporate income tax is made following the rate applicable for companies as per Finance Act 2019 i.e 25%.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

35.13 Revenue

The Company has initially applied IFRS 15 *Revenue from contracts with customers* from 1 April 2018. The Company recognises as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principle, IFRS 15 establishes a five-step model as follows:

- Identify the contract with a customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the Company recognises revenue when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods are considered as transferred when (or as) the customer obtains control of that goods. Revenue from sale of goods is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates and Value Added Tax (VAT).

35.14 Finance income and finance cost

i) Finance income

Finance income comprises interest income on funds invested and is recognised as it accrues in profit or loss using the effective interest method.

ii) Finance cost

Finance costs comprise interest expense on borrowings and foreign exchange gain or loss.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

35.15 Lease liabilities

The lease liabilities is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The lease liabilities is subsequently increased by the interest cost on the lease liabilities and decreased by lease payment made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

35.16 Impairment

i. Financial assets

The Company recognises loss allowances for ECLs on:

- financial assets measured at amortised cost;
- debt investments measured at FVOCI; and
- contract assets.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

ii) Non-financial assets

The carrying amounts of the Company's non-financial assets (other than inventories) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of impairment loss (if any). Where it is not possible to determine the recoverable amount of an individual asset, the Company estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs. An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

Impairment losses are recognised in profit or loss. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

35.17 Contingencies

i) Contingent liability

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised in the statement of financial position of the Company. Moreover, contingencies arising from claims, litigations, assessments, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

ii) Contingent asset

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

The Company does not recognise contingent asset.

35.18 Earnings per share

The Company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares. However, dilution of EPS is not applicable for these financial statements as there was no dilutive potential ordinary shares during the relevant periods.

35.19 Events after the reporting period

Events after statement of financial position date that provide additional information about the Company's position at the statement of financial position date are reflected in the financial statements. Events after statement of financial position date that are non-adjusting events are disclosed in the notes when material.
