Dear Sir/Madam,

Sub: Intimation under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") - COVID 19 Update

This is to inform you that the Company has been taking all the necessary measures to contain the Covid-19 pandemic and abiding by the directions and advisories issued by the Government and the authorities from time to time to ensure the health and safety of our employees.

India Operations

In view of the nation-wide lockdown announced by the Government of India, the Company's operations at various locations have been disrupted. A brief update on the present situation is given below:

- All offices across India have been shut down and Work from Home policy has been adopted by the Company for its employees.
- The Company continues to carry on production at its manufacturing units that manufacture essential commodities like edible oils and food products in line with the orders from the Central and State Governments. While the operations are being run at a reduced capacity utilisation, the Company is taking utmost precaution and is deploying highest safety standards in the interest of continued supplies of these products to consumer as advised by the Government Authorities.
- As of now, the production continues to remain suspended at Company's other manufacturing units. The Company shall commence production as and when it receives Government Orders / directives to this effect.
- The Distribution network has also been significantly impacted. We are focussing on movement of edible oils and food products to the consumers subject to necessary approvals from local Government authorities. The Company is taking all possible efforts to ensure uninterrupted supplies of edible oils and food products to our customers across channels viz. General Trade, Modern Trade and E-Commerce.

International Operations

- There is disruption in the International markets as well and the Company continues to follow the local Rules and Regulations issued by the countries where it has operations.

Further, the Company has formed a committee comprising the senior management to closely monitor the situation arising from COVID 19 and shall continue to comply with all the regulatory advisories being issued on COVID-19.

We hope that the measures taken by various government authorities, in India and overseas, will help prevent further spread. We continue to hold adequate inventory of raw materials and finished goods to cater to higher demand as and when normalcy returns. In the short and medium term, the Company will continue to invest behind its core growth engines.

This is for your information and record.
